Dear Parker Dealer:

We have been analyzing the repair work and find that many times you are sending repairs to Janesville rather than to the proper Parker owned service branch.

These service branches are organized on a factory base and can provide you with far more efficient service without sacrificing any skill in repair.

In the future would you please send any and all repairs to the Parker branch located nearest you as we are reducing our service facilities in the Janesville plant to make room for increased production.

The above information pertains to merchandise repair and exchanges only and does not affect parts handled. You will continue to send parts orders and exchanges to Janesville for handling and please do not include any pen repairs in these shipments.

The Parker service branches in the United States are located in the following places:

207 West 9th Street
Wilmington 1, Delaware

209 South 15th Street
Omaha 2, Nebraska

3728 Williamson Road, N. W.
Roanoke, Virginia

220 Book Building
Detroit 26, Michigan

1111 Citizens Building
Cleveland 14, Ohio

36 South State Street
Chicago 3, Illinois

134 Chestnut Street
Springfield 3, Massachusetts

33 West 60th Street
New York 23, New York

152 Walton Street, N. W.
Atlanta 3, Georgia.

278 Post Street
San Francisco 8, California

~~1812~~ North Industrial Boulevard
Dallas 7, Texas

PEN LATHE

Many service stations have wanted a pen lathe and buffer that was not only practical, but inexpensive.

The attached picture illustrates a bench lathe that is sturdy and compact, at a price far below anything previously available.

We do not have these lathes in stock but will order them after we have received your orders. We will need 30 to 60 days to have them built.

WE WILL SUPPLY THE LATHE WITHOUT MOTOR. We recommend a 1/6 h.p. motor, about 1100 r.p.m.

The price of the lathe (less motor) is \$60.00 net f.o.b. Janesville.

All orders must be in here by June 7.

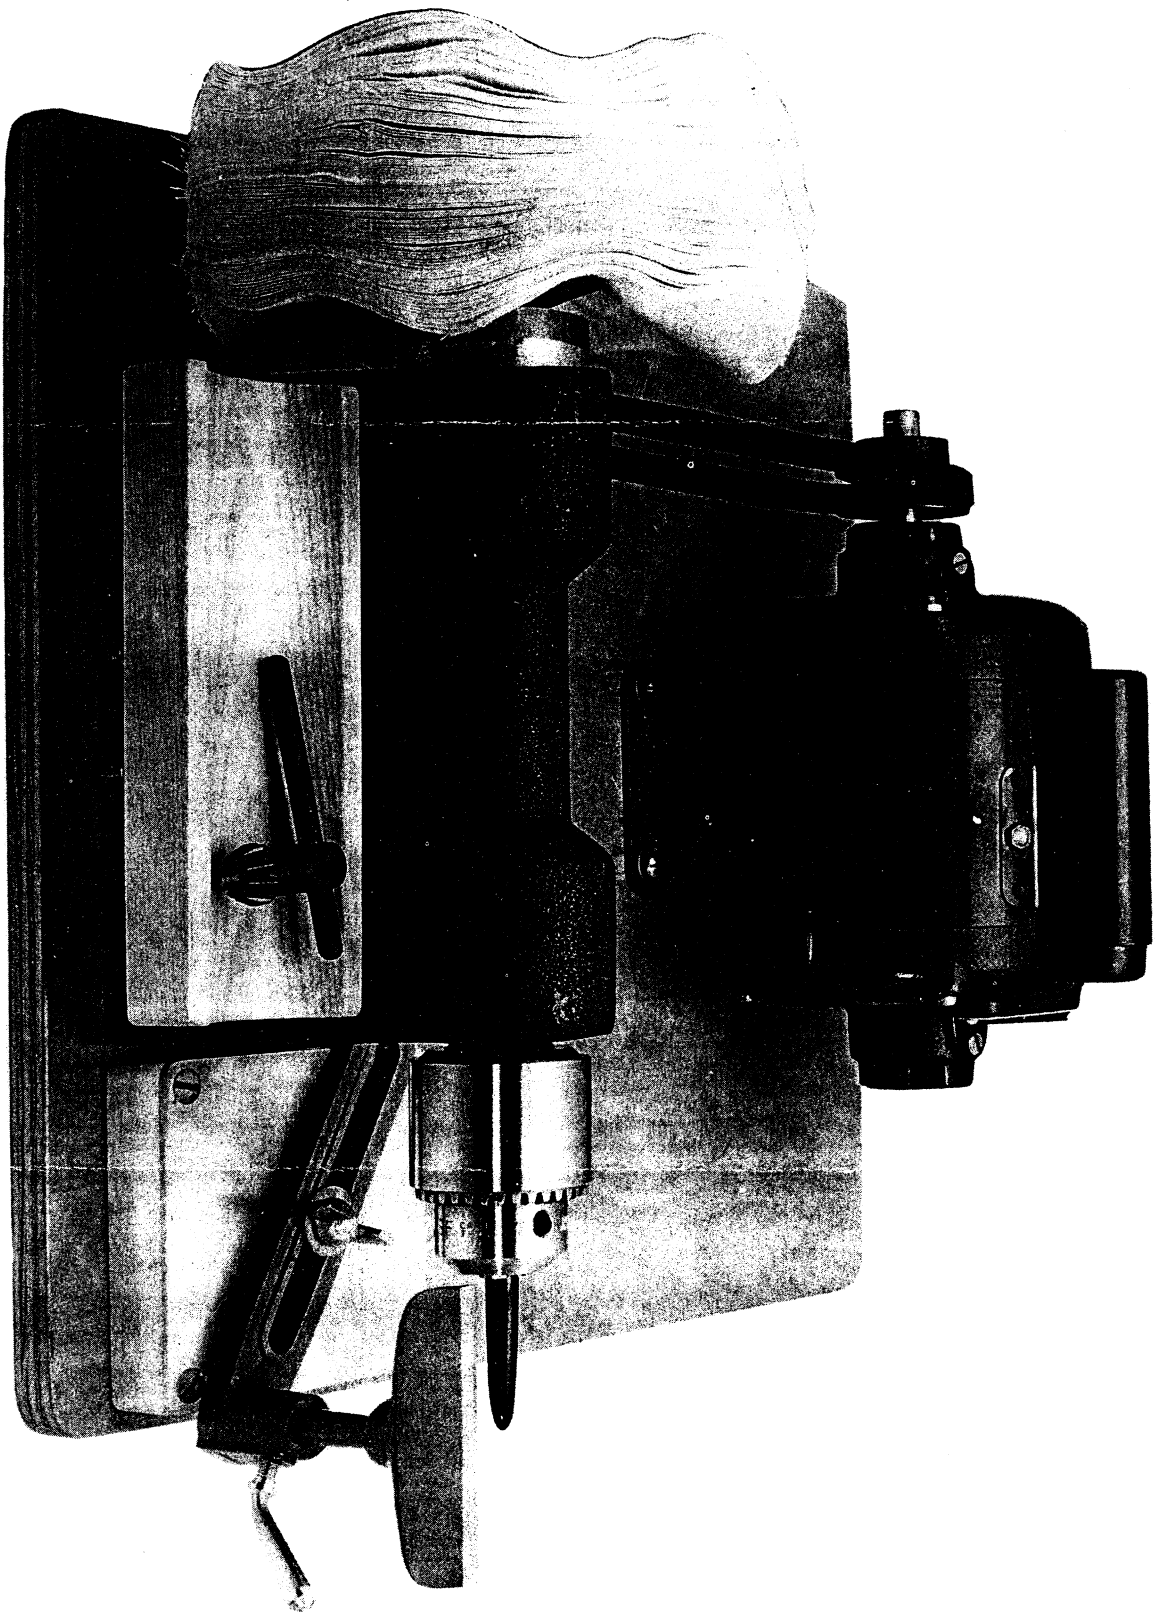

Carbide tipped cutting tools are available @ \$2.30 - #86758

8" Buffing Wheels (10 pads to a set) @ \$.45

Pumice (about 1 lb.) @ \$1.00

Steel Shine (about 1 lb.) @ \$1.50

The Parker Pen Company, Janesville, Wis., U. S. A.

All Purpose Pen Turning and Buffing Lathe No. 17874

(Order motor, pulley and belt separately)

November 1961

Below are listed the part numbers, part description, list price (order and exchange) for the Parker "51" Cartridge Pen newly released.

As we are in the process of constructing a new Parker Repair Parts Price List Book, new pages covering this pen will not be sent to you at this time. Therefore, please insert this sheet in your present book for reference when ordering parts.
